Beware of Imitation or Remanufactured Parts and Supplies.

Only Toshiba genuine parts & supplies are compliant to the RoHS directive & MSDS certified. Even though they may say "for use in Toshiba," or "equivalent reliability and performance", third party supplies can't match Toshiba's exacting quality standards. They don't undergo Toshiba's stringent qualification and rigorous testing to ensure that all components work together in perfect harmony. Plus, they void your warranty. Be Smart. Be Safe. Always purchase from an Authorised Toshiba Distributor so you can be sure you're not inadvertently installing imitation/remanufactured supplies, which can shorten product life, hamper productivity, and irrevocably damage your Toshiba equipment.
